

SOFTWARE DEVELOPER

Unix/Linux/C#.NET | Java | Versatile Problem Solver

SUMMARY OF QUALIFICATIONS

- A results-oriented student of **Software Engineering Technology** Advanced Diploma at Centennial College; Completed a **Graphic Design** Certificate at Seneca College
- Solid knowledge across various technical domains, coupled with a proven ability for rapid skill acquisition
- Proficient in Agile methodologies with an ability to adapt swiftly and collaborate seamlessly with team members, and analyze complex problems to generate creative and efficient solutions
- Multilingual: English, Ukrainian, Russian

TECHNICAL SKILLS

- Specialize in object-oriented software design, graphical user interface design and project management
- Proficient in C#, HTML, CSS, JavaScript, and Unix/Linux environment, Bootstrap
- Solid foundational knowledge of Java, Oracle SQL, and Python; XML and JSON data formats
- Strong understanding of development practices and tools (agility, scrums, Kanban, XP, UML, Jira, GitHub)
- Solid understanding of Software Development Life Cycle (SDLC) and experience using Jira to track projects, enhance collaboration and achieve project deadlines
- Extensive familiarity with MS Office applications and a solid foundational understanding of Power BI
- Skilled with digital graphic design tools Photoshop, InDesign and Illustrator

EDUCATION

Software Engineering Technology (Co-op) Advanced Diploma <i>Centennial College, Toronto, ON</i>	January 2023 - Present <i>GPA: 4.4/4.5 (A+)</i>
---	--

Relevant Courses:

Programming - C#	Client-Side Development - JavaScript	Database Concepts - Oracle SQL
Unix/Linux Operating Systems	Software Engineering Requirements	Web Design - CSS & HTML

Digital Graphic Design Certificate <i>Seneca College, Toronto, ON</i>	January 2022 - August 2022
---	----------------------------

PROJECTS

- Installation of the **Apache Web Server on Ubuntu Virtual Machine**, configuration of .htaccess file and setting up virtual hosts
- Installation and configuration of a standalone **Samba server** to provide networked file shares
- Interactive picture gallery creation using **XMLHttpRequest objects, JavaScript, CSS and HTML**
- C# calculator program and sample student database using **Graphical User Interface (GUI)** design skills
- **C# program** that calculates simple fractions, to demonstrate **unit testing** skills
- C# program that writes in, adds to list, and displays courses using **Json Serialization**
- “Lifestyle Generator” mobile app proposal, featuring various software engineering practices such as different **UML diagrams**, functional- and non-functional requirements, etc.

WORK EXPERIENCE

Project Manager	Freedom Electrical Services, Vaughan, ON	February 2022 - Present
<ul style="list-style-type: none">• Manage company database to reference old orders and create new requests and company files• Demonstrate flexibility, responsiveness and stakeholder engagement skills in achieving project success• Effectively facilitated internal operations through schedule planning and collaboration with team members• Used agile techniques and organizational skills to enhance office procedures, and meet strict deadlines• Achieved and exceeded the company standards by effectively managing multiple projects simultaneously in a tight frame deadline• Used analytical and thinking skills to resolve complications or errors in internal planning or scheduling procedures related to the assigned projects• Effective business management resulting in the successful initiation and completion of over 200 substantial projects annually• Outstanding communication, meticulous attention to detail, and a strong aptitude for teamwork in addressing daily challenges within a high-speed work environment
